## Projects

### Movie Booking Platform – Web Application

- Tech Stack :- JSP, Servlet, HTML, CSS, JavaScript, Bootstrap, MySQL
- Online movie booking web application designed for moviegoers to book their favorite movie(s).

### TechLink – Mobile Application Project

- Tech Stack :- Flutter, Dart, Firebase
- A comprehensive mobile platform connecting IT professionals, students, and enthusiasts in one integrated ecosystem.

### IoT based Plant Monitoring System (Smart Hydroponics)

- Tech Stack :- Arduino, PHP, HTML, CSS, JavaScript, SQL
- This project refers to the development of a smart automatic plant watering and optimizing system using WIFI (HTTP reqs) based on Arduino technology.

### GrowSmart – Web Application

- Tech Stack :- Node.js, Express.js, Socket.io, Composer, PHPMailer, Stripe, PHP, HTML, CSS, JavaScript, Bootstrap, SQL
- GrowSmart is a full web-based gardening platform to empower users with tools and resources such as real-time scenarios, for better plant care, better gardening and green practices.

### Chatroom – Real-time chatting option to this GrowSmart project

- Tech Stack :- Node.js, Express.js framework, Socket.io, HTML, CSS, JavaScript
- This is a real-time chatroom implemented by me to allow real time communication with users to engage community interactions.

### Air Quality Monitoring System

- Tech Stack :- PHP, HTML, CSS, JavaScript, Postman, SQL
- The application is designed to facilitate air quality monitoring by integrating real-time data collection and display features.
